SUBJECT: Nissan Chemical Industries, Ltd.
Targa[®] Herbicide, EPA Reg. No. 33906-9
Notification of Minor CSF Change per PR Notices 1998-10
This Submission Is Not Subject To PRIA Fees

Dear Mr. Baris:

As US Agent for Nissan Chemical Industries, Ltd. ("Nissan"), we are submitting a Notification for a minor change to the basic CSF in accordance with the provisions of PR 1998-10 for **Targa[™] Herbicide (EPA Reg. No. 33906-9)**.

We are expanding the range of the density value in Box 7 of the CSF from 8.48 - 8.64 lbs/gal to 8.34-8.68 lbs/gal. Based on production experience, Nissan has found that the actual density range may vary slightly beyond that currently reflected on the CSF. Therefore, Nissan would like to update their specifications accordingly. We believe that this is a very minor change and that the difference in the upper and lower density values is not significant.

No other changes have been made to the basic CSF, and it is otherwise identical to the latest one on file dated December 15, 2017 which was approved on February 15, 2018.

Enclosed, please find the following documents to support the Notification for **Targa[™] Herbicide**:

- 1) Pesticide Application Form (EPA Form 8570-1); and,
- 2) Revised Basic CSF (EPA Form 8570-4).

Insofar as I am the authorized "Contact Point" and "Company Agent" for Nissan Chemical Industries, Ltd., please relay all correspondence directly to me at 122 C Street NW, Suite 505, Washington DC 20001. If you have any questions, please contact me by telephone at 202-393-3903 ext. 111 or by e-mail at wmccombie@lewisharrison.com.

Thank you in advance for your assistance with this Notification.

Sincerely,

Wendy A. McCombie
U.S. Agent for,
Nissan Chemical Industries, Ltd.
